Section I.c Enrollment

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and not an enrolled student.

Additional guidance on reporting race and ethnicity data.

Total number of students enrolled in 2014-15:		249
Unduplicated number of males enrolled in 2014-15:		59
Unduplicated number of females enrolled in 2014-15:		289

Section I.d Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2014-15.

Average number of clock hours of supervised clinical experience required prior to student teaching	128
Average number of clock hours required for student teaching	640
Average number of clock hours required for mentoring/induction support	15
Number of full-time equivalent faculty supervising clinical experience during this academic year	2
Number of adjunct faculty supervising clinical experience during this academic year (IHE and PreK-12 staff)	18
Number of students in supervised clinical experience during this academic year	820

Please provide any additional information about or descriptions of the supervised clinical experiences:

2 semesters of field based residency at 64 hrs each 1 semester of student teaching at 640 hrs Numbers above represent all students involved in supervised clinical experience prior to and during student teaching for 2 semesters. *Numbers above may represent duplicated entries for a single candidate.

Section I.e Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2014-15. For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

Section I.f Program Completers

Provide the total number of teacher preparation program completers in each of the following academic years:

2014-15: 224

2013-14: 257

2012-13: 233

Section II Annual Goals - Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(ii), §206(a))

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in mathematics in each of three academic years.

Academic year 2014-15

Did your program prepare teachers in mathematics in 2014-15?

Yes

How many prospective teachers did your program plan to add in mathematics in 2014-15?

14

Did your program meet the goal for prospective teachers set in mathematics in 2014-15?

No

Description of strategies used to achieve goal, if applicable:

Provide any additional comments, exceptions and explanations below:

The EPP at Texas A&M - San Antonio is a two year upper level transfer institution. Since students are received as juniors, it is difficult to identify and maintain math candidates. In the 2016-2017 school year, the university will be accepting freshman with a large projected pre-education population coming from the Arts and Sciences. This will, hopefully, provide a direct pathway from high school to our institution for recruiting STEM area teacher candidates.

Section II Assurances

Please certify that your institution is in compliance with the following assurances. (§205(a)(1)(A)(iii), §206(b)) Note: Be prepared to provide documentation and evidence for your responses, when requested, to support the following assurances.

Preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

Yes

Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

Yes

Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

Yes

Prospective general education teachers are prepared to provide instruction to students with disabilities.

Yes

Prospective general education teachers are prepared to provide instruction to limited English proficient students.

Yes

Prospective general education teachers are prepared to provide instruction to students from low-income families.

Yes

Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

Yes

Describe your institution's most successful strategies in meeting the assurances listed above:

Training provided to prospective teachers responds to the identified needs of the local educational agencies or States where the institution's graduates are likely to teach, based on past hiring and recruitment trends. The program partners with area school districts and charter schools. School districts tell us their needs and we in turn respond by making appropriate program adjustments. Training provided to prospective teachers is closely linked with the needs of schools and the instructional decisions novice teachers face in the classroom. The program has undergone a curriculum alignment process. Based on data analysis recommendations of courses we modified the needs of students and the school districts. Prospective special education pre-service teachers receive coursework in core academic subjects and receive training in the delivery of instruction in core academic subjects. Special Education teachers are required to pass the same core academic subjects an

Section IV Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program.

Is your teacher preparation program currently approved or accredited?

Yes

If yes, please specify the organization(s) that approved or accredited your program:

State

Applying for CAEP

Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

No

Section V Use of Technology

Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare teachers to:

- integrate technology effectively into curricula and instruction
Yes
- use technology effectively to collect data to improve teaching and learning
Yes
- use technology effectively to manage data to improve teaching and learning
Yes
- use technology effectively to analyze data to improve teaching and learning
Yes

Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All students are required to complete critical assignments related to technology competencies and standards. In addition, technology is integrated throughout the curriculum which has been aligned to state standards.

Section VI Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare general education teachers to:

- teach students with disabilities effectively
Yes
- participate as a member of individualized education program teams
Yes
- teach students who are limited English proficient effectively

Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

All students are required to take EDSE 3345. Survey of Exceptional Individuals. This course is a survey of special education with attention devoted to mildly to moderately disabled individuals in the sociocultural context: family, community, educational and vocational. This course requires students to create an IEP based on case study data. All students are required to take EDBL 4311. Second Language Acquisition and Literacy Development for English Language Learners. This course covers first and second language acquisition theories for English Language Learners; educational implications of those theories; design of English language curricula consistent with current theories of second language learning and teaching.
