

EARLY CHILDHOOD, MASTER OF EDUCATION

The Early Childhood Program offers a Master degree in Early Childhood Education. The program is designed to serve the professional development needs of educators and child care professionals by preparing them to serve a diverse population of early childhood students and their families. The Early Childhood program offers students a broad understanding within the theoretical constructs which support practices for young children that are socially, culturally and individually appropriate.

The program emphasizes a holistic view of the child and family while also valuing their role as integral to the community. The goal of the program is for graduates to develop the skills to engage in issues of advocacy with children and families.

The field of Early Childhood Education encompasses a range of professions including:

- certified teachers,
- child development specialists,
- early childhood directors,
- early childhood education coordinators,
- early childhood advocates and
- Head Start professionals.

Therefore, this degree program focuses on developing the skills and thought processes of both certified and non-certified professionals who work with young children.
